Let Me Be Your Personal Injury Lawyer

I consider any injury that you sustain to be serious. You may have lost time from work, or time away from doing what is important to you. Regardless of the circumstance, your injuries, and the affects you have sustained as a result of the injury, are compensable. Your family as well may have been affected by your injury. This may also be considered as an element of your claim.

I am available for you at your convenience, and not mine. When you hire me, I will be there for you 24/7, by phone, email, and in-person – whichever you prefer. You will not be passed on to an associate, paralegal, or staff member. I personally work for you in seeking to obtain the maximum compensation for you and your family.
